- Unit 4 – A Dynamic Planet
- Unit 5 – Exploring the Universe

Welcome!

Welcome to 7th Grade Science!! I am looking forward to getting to know each of the students and help them be the best they can be.

I have planned an eventful year full of scientific exploration, investigation, and dissections. Yes, you read that right. Students will perform dissections.

It is my hope that each student will grow in their ability to think critically, look differently at the world around them, and learn to contribute to the natural world.

I am excited to announce that we will have a middle school science fair this year. Each student in grades 6-8th will perform a research project and present their findings to the class. There will be class/grade awards along with overall middle school awards for best project and presentation.

Please contact me if there are any questions, comments, or concerns. Let's have a great year!

Classroom Wish List

- Paper Towels
- Copy Paper
