- Unit 5 – Ratios and Proportions
- Unit 6 – Percents
- Unit 7 – Probability
- Unit 8 – Statistics
- Unit 9 – Geometric Shapes and Angles
- Unit 10 – Surface Area and

Welcome!

Welcome to 7th Grade Math!! I am looking forward to getting to know each of the students and help them be the best they can be.

I have planned an eventful year and pray that each student learns these three things:

- Math is a fun subject!
- Math is everywhere and has many real-life applications.
- Math is understandable for everyone.

Math class will be devoted to helping each child solidify basic math skills. As your child demonstrates proficiency in basic math skills, your child will be immersed with lessons in Algebra and Geometry. Our year will be dedicated to making sure each child fills in any learning gaps from the previous years and progresses forward, ending the year at or above grade level.

Please contact me if there are any questions, comments, or concerns. Let's have a great year!

Classroom Wish List

- Paper Towels
- Copy Paper
